Vector Sketch Achieves AV Industry Certification

***Certified AudioVisual Solutions Provider Program Signifies
Company Commitment to Education and Training***

Saint Peters, MO May 9, 2007 – Vector Sketch today announced its participation in the audiovisual industry’s highly regarded certification program, marking its commitment to education and training for all employees.

The Certified AudioVisual Solutions Provider (CAVSP) Program is the industry standard certification program for companies in the professional audiovisual industry. It is administered by InfoComm International® and the International Communications Industries Foundation (ICIF).

“A CAVSP designation gives AV companies a competitive advantage in the marketplace,” said Randal A. Lemke, Ph.D., InfoComm International’s executive director. “Customers of audiovisual communications and presentation systems can be confident of professionalism and an aspiration to excellence when working with these companies that have invested in education and training to stay current on the latest AV technologies and techniques.”

The CAVSP Program includes three levels -- basic, silver and gold certified members -- depending on the percentage of staff within an organization who have received individual certification. Individual certification is known as the Certified Technology Specialist (CTS) program, and consists of general certification as well as specialized certification in design, installation, rentals or sales.

“At Vector Sketch we believe in continuing our training and maintaining our skills in the Audio Visual industry” says Adrian Boyd, President of Vector Sketch “This industry is constantly changing and evolving, and Vector Sketch is devoted to evolving with it.”

Companies eligible for CAVSP status include businesses that manufacture, sell, integrate, design, provide consultation on or rent AV equipment, systems and services. The CAVSP program (formerly InfoComm International’s Certified Member Program) ties in with the AVolution Industry Awareness Campaign that promotes the skills and talents of professional AV solutions providers (AVSPs). To achieve CAVSP status, the company must participate in AVolution by agreeing to 10 Standards of Excellence. More information on InfoComm’s certification program and educational courses is available at

www.infocomm.org. More information on the AV Industry's AVolution Awareness Campaign is available at www.avolution.info.

About Vector Sketch

Vector Sketch provides consulting services to the Pro AV Community who need additional expertise or manpower but can't afford to train and hire full-time, highly paid audio visual design and documentation professionals, or who find outsourcing some audio visual design and documentation services more effective than doing them in-house.
